

Is all that dirt spoiling your day? The GRÜNIG Sweeping Fox will sweep it away!

The GRÜNIG Sweeping Fox represents a complete new generation of self-propelled sweepers with unmatched performance specifications. The Sweeping Fox demonstrates its full potential in very dirty and also wet conditions. Bulky or heavy debris is no problem at all for the Sweeping Fox. It keeps on cleaning where other self-propelled sweepers – especially those with suction material collection – give up! It ensures accurate and thorough cleaning, covers large areas and has an enormous debris capacity. The Sweeping Fox can handle extremely fine particles, leaves, wood, glass, metal and paper waste just as well as large items of debris, such as scrape metal or even whole cobble stones.

The parallelogram brush suspension ensures thorough cleaning, even on uneven surfaces. The fully enclosed sweeping unit ensures that the operation of the GRÜNIG Sweeping Fox is practically dust-free. The optional water spraying unit also prevents dust from rising even from the gutter brush area. The gutter brush removes dirt and even weeds from edges.

The debris collected in the integrated debris container can be emptied directly into a garbage container using the lifting mast. This highly maneuverable Sweeping Fox is available in the working widths 1,20 m, 1,50 m and 2,00 m.

Thank hydrostatic drive, the foot pedal is used to sensitively control forward and reverse driving speed. All of its controls are clearly and logically laid out. The Sweeping Fox with such easy handling can even be operated by inexperienced drivers.

The sturdy design means that the Sweeping Fox can even cope with faulty operation and bumps and can be used in any weather. The maintenance requirements are kept at a minimum level and ensure surprisingly low cost of operation.

quiet and economical diesel engine

Key benefits of GRÜNIG's Sweeping Fox

- Highest sweeping performance
- Can be used even in very dirty or even wet conditions
- Can cope with bulky and heavy debris and encrusted dirt, leaving a clean finish
- Even cleans thoroughly on uneven ground
- Operates practically dust-free
- Provides high dump option for emptying into containers
- Very sturdy and resilient design
- Hydraulically operated, rear-wheel steering with a tight turning radius
- Simple to operate
- Hydrostatic transmission provides infinitely variable transmission
- Extremely low-maintenance requirements
- Unmatched low cost of operation
- Top quality "Made in Germany" providing unmatched value for money

high dump of debris container

Technical specifications

Engine:	liquid-cooled diesel engines	Brakes:	hydrostatic main brake and hydraulically activated parking brake
Displacement:	730 ccm 3 cylinder	Chassis and steering:	extremely solid steel chassis, hydraulic rear wheel steering with load sensing control
Performance (SAE):	14 kW at 3600 1/min	Main broom diameter:	600 mm
Transmission:	hydrostatic drive	Emptying height:	1,40 m, optional high dump emptying height 1,80 m
Operating speed:	0 - 10 km/h		

Measurements and sweeping capacity

Sweeping-Fox model-range:	1200	1500	2000
Working width			
without gutter brushes:	1,20 m	1,50 m	2,00 m
with 2 gutter brushes:	1,90 m	2,20 m	2,70 m
Debris container: ("Jumbo"-version appr. double debris capacity)	240 litre	260 litre	305 litre
Max. theoretical sweeping performance			
Without gutter brushes:	12.000 m ² /h	15.000 m ² /h	20.000 m ² /h
With 2 gutter brushes:	19.000 m ² /h	22.000 m ² /h	27.000 m ² /h
Overall length:	2,80 m	2,80 m	2,80 m
Overall width (without gutter brushes):	1,69 m	1,99 m	2,49 m
Overall height:	1,97 m	1,97 m	1,97 m
Weight (empty):	1.010 kg	1.080 kg	1.200 kg
Turning radius:	1,55 m	1,85 m	2,35 m
